Professional Summary

DevOps professional with over 11 years of experience in delivering high-availability platforms and implementing CI/CD at scale. Led microservice migrations, built incremental deploy pipelines, and optimized K8s workloads to reduce cost. Hands-on with Jenkins, Docker, Kubernetes, AWS, Terraform, Python; strong SDLC and production reliability mindset.

Employment History

Specialist - Software Engineering, LTIMindtree, Pune

02/2023 - Present

- Led migration of 20+ microservices from the in-house NinjaGo tool to the Engineering System Platform (ESP) during my onsite tenure in Finland for six months.
- Owned deployments across dev → prod, standardizing promotion gates, approvals, and change windows.
- Introduced PR-based Sonar scanning in CI, increasing code coverage from 60% to 80%+ and reducing post-merge defects by 90%.
- Right-sized K8s workloads on MKE via resource requests/limits; lowered compute costs by 40%.

Custom Software Engineering Team Lead, Accenture, Pune

08/2021 - 01/2023

- Implemented Jenkins pipeline to build, test and deploy only incremental changes using SFDX CLI.

Technical Specialist, MindTree Ltd, Pune

04/2017 - 08/2021

- Automated recurring ops with Python/Java (backups, log rotation, health checks), saving ~20 hours/month.
- AWS PoC with Terraform + Jenkins for blue/green web app deploys; standardized modules and remote state.
- Led RCA for production incidents; delivered trend reports that reduced repeat incidents by 90%.

Technical Support Engineer, Cassiopae Solutions (acquired by Sopra Banking), Pune

03/2016 - 04/2017

- 24/7 monitoring using Nagios; created runbooks.
- Built SonarQube → Jira integration via REST, auto-creating tickets by severity; improved SLA adherence by 80%.
- Containerized monolith on Docker for BA demos; reduced environment setup cost by 50% and time from 12+ hours to 20 minutes.

Associate Software Engineer, DhanpraTech Solutions, Pune

09/2015 - 02/2016

- Develop application for a sliding window manufacturer firm.
- Communication with clients on a weekly basis, including data gathering, reporting and presenting demos of completed modules.

Desktop Support Engineer, Impact Infotech, Pune

04/2014 - 07/2015

- Resolve assigned issues within SLA.
- Troubleshoot issues and inform end users about the issue with an estimated time to resolution.

- Communicate with other support teams like Network Admin, Voice Admin and Server Admin to analyze issues so that resolution to issue is found in a short time span.
- Provide daily shift updates to system admin and helpdesk manager.

Education

Master of Computer Science, University of Pune, Pune

04/2012 - 03/2014

Bachelor of Computer Science, University of Pune, Pune

08/2008 - 04/2012

Certifications

AWS Certified Solution Architect - Associate

03/2022 - 03/2025
